# About the Program

The Certificate Course on Construction Law by CEAI Academy is a comprehensive 4-day program designed to equip engineers, project managers, legal professionals, and industry stakeholders with a solid understanding of the legal landscape surrounding construction projects. The course covers essential aspects such as engineering law, contract interpretation, dispute resolution mechanisms (including DRB, DRE, and Arbitration), and claim management. With a strong focus on real-world application, the program includes interactive sessions, case studies, and a hands-on moot court to enhance legal reasoning and practical knowledge. Participants will leave better prepared to handle contractual complexities and mitigate project risks effectively.
